Evidence from **reverse_search**

The image

Evidence from `image_search`

From [Source](#): Content: The search result from Asharq Al-Awsat discusses Israeli forces infiltrating several Syrian villages in Quneitra and Daraa.

Evidence from `geolocate`

The most likely countries where the image was taken are: {'Palestine': 0.68, 'Israel': 0.27, 'Jordan': 0.03, 'United Arab Emirates': 0.01, 'Albania': 0.0, 'Andorra': 0.0, 'Argentina': 0.0,

'Australia': 0.0, 'Austria': 0.0, 'Bangladesh': 0.0}

Elaboration

The image search results show that Israeli forces have been reported in the Daraa region. The geolocation analysis suggests that the image was most likely taken in Palestine or Israel. However, the evidence does not confirm that the image depicts Israeli military forces entering the town of Tasil. More information is needed to verify the claim.

Actions

```
image_search("Israeli military forces Tasil Daraa February 2025")
```

Evidence

Evidence from `image_search`

From [Source](#): Content: The search result from Syria Direct discusses Israeli presence in Syria.

Elaboration

The new evidence from the image search provides additional context about Israeli presence in Syria. However, it still does not confirm the claim that the image shows Israeli military forces entering the town of Tasil in February 2025. The search results do not mention Tasil or the specific date.

To verify the claim, I need evidence that directly links the image to the town of Tasil and the date February 2025.

Final Judgement

The image search results show Israeli presence in the Daraa region, but there is no evidence to confirm that the image depicts Israeli military forces entering the town of Tasil in February 2025. The evidence is insufficient to verify the claim.

false
