Evidence

Evidence from **web_search**

The CNN article from July 27, 2024, reports on an Israeli airstrike on a school in Deir al-Balah, central Gaza, resulting in at least 30 deaths and over 100 injuries. The BBC article from August 20, 2024, reports on an Israeli strike on a school in Gaza City, which was sheltering displaced people, resulting in at least 12 Palestinian deaths. The Human Rights Watch report, published on September 30, 2024, discusses the impact of Israeli attacks on Gaza, including the killing of over 16,750 children as of mid-September 2024.

Evidence from geolocate

The most likely countries where the image was taken are: {'Palestine': 0.51, 'Israel': 0.24, 'Jordan': 0.11, 'Russia': 0.02, 'Canada': 0.01, 'Colombia': 0.01, 'France': 0.01, 'Sweden': 0.01, 'Turkey': 0.01, 'Ukraine': 0.01}

Elaboration

The evidence confirms that Israeli airstrikes in Gaza resulted in casualties, including children, in July and August 2024. The Human Rights Watch report indicates a high number of child fatalities by mid-September 2024. The geolocation data suggests the image was most likely taken in Palestine.

Based on the evidence, the claim that the image depicts a Palestinian child under rubble in Gaza after an Israeli airstrike is plausible. However, the exact date and location within Gaza cannot be confirmed.

To fully verify the claim, additional information is needed to confirm the specific date and location of the event depicted in the image.

Final Judgement

The evidence supports the claim that the image depicts a Palestinian child in Gaza after an Israeli airstrike, as confirmed by multiple sources reporting on Israeli attacks in Gaza during the specified timeframe. The geolocation data also supports this. However, the exact date and location of the event in the image cannot be confirmed. `true`

Verdict: TRUE

Justification

The image likely depicts a Palestinian child in Gaza after an Israeli airstrike, as supported by reports of Israeli attacks in Gaza during July and August 2024, including a [CNN article](#) and a [BBC article](#). The geolocation data also supports this. However, the exact date and location of the event in the image cannot be confirmed.
