Evidence

Evidence from **reverse_search**

The image of the exploded iPhone (

) is discussed in multiple articles. One article from DW.com (<https://www.dw.com/en/fact-check-no-iphones-solar-panels-laptops-exploded-in-lebanon/a-70281061>) states that the image is not related to the current attacks in Lebanon and dates back to March 2021.

Other articles, such as those from itc.ua (<https://itc.ua/en/news/not-just-pagers-iphones-laptops-electronic-locks-and-other-devices-exploded-in-lebanon-today/>) and The China

Academy (<https://thechinaacademy.org/israels-pager-attack-has-cooked-western-led-globalization/>), discuss explosions in Lebanon involving electronic devices, including iPhones, and mention the image (

). The itc.ua article also includes another image (

).

Elaboration

The claim that the image shows an iPhone that exploded during pager attacks in Lebanon in September 2024 is not entirely accurate. While the image (

Final Judgement

The image of the exploded iPhone is not directly linked to the specific context of the pager attacks in Lebanon in September 2024. While the image has been associated with discussions about explosions involving electronic devices in Lebanon, one source indicates the image dates back to March 2021. Therefore, the claim misrepresents the origin and context of the image. false

Verdict: FALSE

Justification

The image of the exploded iPhone (
