Evidence

Evidence from **reverse_search**

The image (

) of Benjamin Netanyahu's house predates the claim. It was featured in a June 25, 2020 article by *Times of Israel* and a YouTube video uploaded on July 1, 2019. The *Times of Israel* published an article on October 21, 2024, discussing a drone explosion near Netanyahu's house in Caesarea, but the image was not present in the article. The image was also found on the website "Beyond Highbrow".

Evidence from geolocate

The most likely countries where the image was taken are: {'Israel': 0.17, 'Mexico': 0.15, 'Tunisia': 0.11, 'Malta': 0.1, 'Palestine': 0.07, 'Bermuda': 0.05, 'Jordan': 0.05, 'United Arab Emirates': 0.04, 'Dominican Republic': 0.03, 'Pakistan': 0.03}

Elaboration

The image predates the claim, as it was published in 2019 and 2020. The *Times of Israel* published an article on October 21, 2024, discussing a drone explosion near Netanyahu's house, but the image was not present in the article. The image was also found on the website "Beyond Highbrow". The geolocation data suggests the image could have been taken in Israel, but also in other countries.

The claim that the image was taken by a Hezbollah drone in August 2024 is not supported by the evidence. The image was taken before August 2024.

Final Judgement

The claim is demonstrably false because the image predates the date mentioned in the claim.

The image was published in 2019 and 2020, while the claim states it was taken in August 2024. false

Verdict: FALSE

Justification

The image in the claim, which purports to show Israeli PM Benjamin Netanyahu's house taken by a Hezbollah drone in August 2024, is demonstrably false. Reverse image searches reveal that the image was published in 2019 and 2020, predating the date specified in the claim, as evidenced by articles from the *Times of Israel* and other sources (<https://pesacheck.org/missing-context-this-image-of-israeli-prime-minister-benjamin-netanyahus-home-was-not-captured-by-9d48e97d86b7>).
