The claim is partially accurate. The image does depict Benjamin Netanyahu's house. However, the image was taken before August 2024. The reverse image search indicates that the image was taken in 2019. The web search confirms that a drone strike occurred in October 2024, but the image itself predates this event.

Final Judgement

The image is of Benjamin Netanyahu's house, but it was taken before August 2024. The claim is therefore inaccurate regarding the date the image was taken.
