Elaboration

The evidence suggests that there were reports of a seismic event in Israel on October 5, 2024. Multiple sources, including NDTV and Johns Hopkins University, mention an earthquake in

Israel on that date. The Johns Hopkins University article specifically mentions misinformation linking the Iranian earthquake to a seismic event in Israel on the same evening.

Therefore, based on the provided evidence, the claim is likely true.

Final Judgement

The search results confirm that there were reports of a seismic event in Israel on October 5, 2024. Multiple sources, including NDTV and Johns Hopkins University, mention an earthquake in Israel on that date.

true

Verdict: TRUE

Justification

The claim is supported by evidence from multiple sources. Articles from NDTV and Johns Hopkins University, among others, mention a seismic event in Israel on October 5, 2024, confirming the claim.
