Elaboration

The image (

) is

of Benjamin Netanyahu's private residence in Caesarea, Israel, and was taken in 2019. The claim states that the image was taken by a Hezbollah drone in August 2024. This is inconsistent with the evidence, which indicates the image's origin predates the claimed event.

The evidence also mentions a drone explosion near Netanyahu's house in October 2024, but this event is not directly linked to the image in question. Additionally, the image search results show other images related to Netanyahu's residences, including one that may have been taken by a drone.

Therefore, the claim is false because the image was taken in 2019, not in August 2024.

Final Judgement

The image is of Benjamin Netanyahu's house, but it was taken in 2019, not in August 2024 as the claim states. The claim also attributes the image to a Hezbollah drone, which is not supported by the evidence.

false

Verdict: FALSE

Justification

The image in question, which depicts Benjamin Netanyahu's house, was taken in 2019 and published in a *Times of Israel* article in 2020, not in August 2024 as the claim suggests. The claim also incorrectly attributes the image to a Hezbollah drone.
