Al Jazeera (<https://www.aljazeera.com/news/2025/8/24/israel-has-destroyed-more-than-1000-buildings-in-gaza-city-civil-defence>) reported on August 24, 2025, that Israel destroyed over 1,000 buildings in Gaza City [image:i](#). Final Judgement

The image's geolocation data suggests it could be in Palestine. The web search results confirm significant destruction in Gaza. The BBC article provides satellite imagery and states that thousands of buildings have been demolished since March 2025. However, the claim states the image was taken in December 2024, while the evidence indicates the destruction occurred in 2025.

false

Verdict: FALSE

Justification

The claim is false. While the image likely depicts destruction in Gaza, the evidence indicates the destruction occurred in 2025, not December 2024, as stated in the claim. The BBC (<https://www.bbc.co.uk/news/resources/idt-33fccfbe-abcc-4af1-bdd2-632b2787cf59>) reported on the destruction in Gaza, with satellite images from May and July 2025.
