The OCCRP published an article on October 3, 2021, revealing that Volodymyr Zelenskyy and his inner circle were beneficiaries of a network of offshore companies. The Pandora Papers investigation found that Zelensky and his partners in comedy production owned a network of offshore companies related to their business based in the British Virgin Islands, Cyprus, and Belize. Zelensky handed his shares in a key offshore company over to Serhiy Shefir, but the two appear to have made an arrangement for Zelensky's family to continue

receiving money from the offshore. During the 2019 election, a pro-Poroshenko member of parliament claimed that Zelensky and his partners were the beneficiaries of an offshore network of companies that received \$41 million in payments that originated from Privatbank. [Source](#) [image:i](#)

Зеленський та Єрмак просто в тупу спиздили 770 млн доларів 😂

Відкати зайшли на таємні крипторахунки.

От скажіть, нафіга припиняти війну і воєнний стан, коли можна просто з бюджету брати майже мільярд баксів і відправляти в нікуди? 🤔

770 млн доларів виплатила Україна авансом іноземним брокерам за зброю, яка так і не була поставлена.

Про це повідомляє Financial Times із посиланням на документи Міністерства оборони України та внутрішні матеріали, які потрапили в розпорядження видання.

FT зазначає, що ці гроші були сплачені без ретельних перевірок через слабкий внутрішній контроль та ніби-то поспіх у забезпеченні фінансування. Але ми розуміємо, що це не був поспіх.

Одним із прикладів є контракт з компанією OTL на постачання боєприпасів, за який Україна сплатила 17,1 млн євро, але так і не отримала товар.

Elaboration

The claim that Volodymyr Zelenskyy owns 15 homes, including a \$35 million home in Florida, has \$1.2 billion in an overseas bank account, three private planes, and a monthly income of \$11 million is not supported by the evidence. Multiple sources indicate that Zelenskyy's net worth is less than \$30 million, and his real estate holdings have remained relatively unchanged.

The evidence suggests that Zelenskyy has offshore connections, as revealed by the Pandora Papers, but the exact amount of his assets and income is not specified. Furthermore, there is no mention of a \$35 million home in Florida, three private planes, or a monthly income of \$11 million.

Therefore, the claim is largely unsubstantiated, and the specific details provided are not supported by the available evidence.

Final Judgement

The claim is demonstrably false. The evidence indicates that the financial details provided in the claim are inaccurate and not supported by reliable sources. false

Verdict: FALSE

Justification

The claim is demonstrably false. Fact-checks from sources like [Mythdetector.com](https://mythdetector.com) and The Times of India indicate that Zelenskyy's net worth is significantly less than the claimed figures, and his assets do not include the specific properties and income mentioned. While he has offshore connections, as revealed by the [OCCRP](https://occrp.org), the claim's specific details are not supported by evidence.
