From [Source](#): Content: The NPR article, published on July 23, 2025, reports that over 1,000 Palestinians have been killed by Israeli forces since May while trying to get food in Gaza, mostly near aid sites. However, the provided evidence does not specify the exact number of Palestinian deaths in Deir al-Balah during March 2025. Therefore, the claim that at least four Palestinians were killed cannot be fully verified.
