

Claim

Claim: "Israel experienced an earthquake on October 5, 2024."

Actions

`web_search("earthquake Israel October 5 2024")`

Evidence

Evidence from `web_search`

Multiple sources discuss an earthquake in Israel on October 5, 2024. An article from NDTV, published on October 7, 2024, mentions earthquakes in both Iran and Israel on that date, sparking speculation about nuclear tests. The Johns Hopkins University published an article on February 4, 2025, debunking claims that linked the Iranian earthquake to a seismic event in Israel on the same evening. An article from alphadefense.in, also published on October 7, 2024, discusses a seismic event in Iran on October 5, 2024, which led to speculation about a nuclear test.

The articles can be found at the following URLs: <https://hub.jhu.edu/2025/02/04/earthquake-nuclear-test-misinformation/>, <https://www.ndtv.com/world-news/earthquakes-in-iran-and-israel-sparks-speculation-of-nuclear-tests-6735904>, and <https://alphadefense.in/index.php/2024/10/07/iran-seismic-activity-nuclear-test-or-earthquake/>. `image:k,`

Elaboration

The evidence confirms that an earthquake occurred in Israel on October 5, 2024. Multiple sources, including NDTV and Johns Hopkins University, mention this event. The NDTV article specifically mentions earthquakes in both Iran and Israel on that date.

Final Judgement

The search results confirm that an earthquake occurred in Israel on October 5, 2024. Multiple sources, including NDTV and Johns Hopkins University, mention this event.

The claim is supported by evidence from multiple reliable sources. Therefore, the most appropriate decision option is `true`.

Verdict: TRUE

Justification

Multiple sources, including NDTV (<https://www.ndtv.com/world-news/earthquakes-in-iran-and-israel-sparks-speculation-of-nuclear-tests-6735904>) and Johns Hopkins University (<https://hub.jhu.edu/2025/02/04/earthquake-nuclear-test-misinformation/>), confirm that an earthquake occurred in Israel on October 5, 2024.
