## Evidence

Evidence from **web\_search**

On July 27, 2024, a rocket attack occurred in the Israeli-occupied Golan Heights, resulting in casualties. A Wikipedia article ([https://en.wikipedia.org/wiki/Timeline\\_of\\_the Israel %E2%80%93Hezbollah conflict \(27 July 2024 %E2%80%93 16 September 2024\)](https://en.wikipedia.org/wiki/Timeline_of_the_Israel%E2%80%93Hezbollah_conflict_(27_July_2024%E2%80%9316_September_2024))) mentions that a Hezbollah rocket struck a soccer field in Majdal Shams, killing 12 children. Reuters (<https://www.reuters.com/world/middle-east/nine-people-killed-rocket-hits-football-pitch-israeli-occupied-golan-israel-2024-07-27/>) also reported on the attack, stating that 12 people, including children, were killed.

Al Jazeera (<https://www.aljazeera.com/news/2024/7/27/israel-says-10-killed-in-rocket-attack-on-occupied-golan-heights>) reported at least 12 deaths and 30 injuries. Israel accused Hezbollah, but Hezbollah denied responsibility.

## Elaboration

The evidence confirms that a rocket attack on July 27, 2024, in the Israeli-occupied Golan Heights, resulted in the death of children. However, the image search results show images of children in strawberry fields, which contrasts with the context of the rocket attack.

The claim states that the image shows the youngest victim of the attack. There is no information in the provided evidence to support this. Therefore, the claim cannot be verified.

To verify the claim, information is needed to connect the image to the victims of the rocket attack. This would require identifying the child in the image and confirming their death in the attack.
