### Elaboration

The provided evidence does not contain the image. The reverse image search only confirms the existence of the image. The web search results describe Israeli airstrikes in Gaza in July and August 2024, including strikes on schools. However, none of the articles include the image or confirm the specific details of the claim.

Therefore, the claim cannot be verified with the available information. More information is needed to confirm the image's context, including the child's identity, the location, and the cause of the rubble.
