Elaboration

The claim is demonstrably false. Multiple sources, including Snopes via a Yahoo News article, debunk the claim. The evidence indicates that Zelenskyy owns fewer than 15 properties, not three private planes, and his annual income is around \$300,000, not \$11 million monthly. There is no evidence of a \$35 million home in Florida.

Zelenskyy's real estate portfolio is worth \$4 million, according to The Times of India. His net worth is estimated to be less than \$30 million by Forbes, and Celebrity Net Worth estimates his worth at roughly \$1.5 million.

The evidence does not support the claim of \$1.2 billion in an overseas bank account.

Final Judgement

The claim that Volodymyr Zelenskyy owns 15 homes, a \$35 million home in Florida, has \$1.2 billion in an overseas bank account, three private planes, and a monthly income of \$11 million is false. Fact-checks from multiple sources, including Snopes and The Times of India, contradict these assertions. Zelenskyy's actual assets and income are significantly lower than what the claim states.
