Elaboration

The claim is demonstrably false. Multiple sources, including Yahoo News (<https://news.yahoo.com/fact-check-false-claims-about-170000767.html>) and AOL (<https://www.aol.com/much-volodymyr-zelenskyy-worth-160047933.html>), debunk the assertion that Zelenskyy owns 15 homes, a \$35 million Florida home, and has a monthly income of \$11 million.

Evidence indicates Zelenskyy's real estate holdings are significantly less than 15 properties, with a portfolio worth approximately \$4 million, as reported by The Times of India. Furthermore, his declared annual income is around \$300,000, and his net worth is estimated to be between \$1.5 million and \$30 million, not \$1.2 billion.

The evidence also reveals that Zelenskyy and his inner circle were involved in offshore companies, as reported by OCCRP and the Pandora Papers. However, this does not validate the claim about his assets.

Final Judgement

The claim is false. The evidence from multiple sources, including Yahoo News and AOL, contradicts the claim that Zelenskyy owns 15 homes, a \$35 million Florida home, and has a monthly income of \$11 million.
