Elaboration

The image depicts a fire at an oil refinery near Tehran. The reverse image search indicates that the image was taken on June 2, 2021, and the fire was caused by a gas leak.

The web search confirms that on October 26, 2024, there were Israeli airstrikes against military targets in Iran. However, the provided image is not related to the airstrikes.

Final Judgement

The image is from a fire at an oil refinery near Tehran in June 2021, not from an Israeli bombing on October 26, 2024. The claim misrepresents the origin and context of the image.
