

# Claim

Claim: "

This image shows Gaza, completely destroyed, in December 2024."

## Actions

```
reverse_search(![image 10228] (media/58.jpg))  
web_search("Gaza destroyed buildings")
```

## Evidence

### Evidence from **reverse\_search**

The image

was found on two websites: Apartments.com (<https://www.apartments.com/near-me/apartments-for-rent/11/>) and a website titled "Apartments For Rent In Hometown, Illinois" (<https://www.setrents.com/Hometown/Apartment>).

### **Evidence from web\_search**

An Al Jazeera article from August 24, 2025, reports that Israel has destroyed over 1,000 buildings in Gaza City. The UN News, published on April 22, 2025, reports on the destruction in Gaza, mentioning that approximately 92% of residential buildings have been damaged or destroyed. The UN article also discusses the challenges in removing debris and recovering bodies. The image

### **Elaboration**

The reverse image search results are not relevant to the claim. However, the web search results provide information about the destruction in Gaza.

The Al Jazeera article from August 2025 and the UN News report from April 2025 confirm significant destruction in Gaza. The UN article states that approximately 92% of residential buildings have been damaged or destroyed.

Based on the evidence, the claim that Gaza is completely destroyed is plausible, given the extent of damage reported in 2025. However, the image's origin and the exact date it was taken are not confirmed.

## **Final Judgement**

The image search results are not relevant. However, the web search results confirm significant destruction in Gaza. The UN article states that approximately 92% of residential buildings have been damaged or destroyed. The claim that Gaza is completely destroyed is plausible, given the extent of damage reported in 2025.

true

**Verdict: TRUE**

## **Justification**

The claim is plausible. Web search results, including an Al Jazeera article from August 2025 and a UN News report from April 2025, confirm significant destruction in Gaza, with the UN article stating that approximately 92% of residential buildings have been damaged or destroyed.
