## Elaboration

The evidence confirms that Hezbollah claimed to have attacked the Ramat David airbase on September 22, 2024. However, the image in the claim is not confirmed by the evidence. The CNN image shows damage from the attacks, but it is not of the airbase. Therefore, the claim cannot be verified.

## Final Judgement

While multiple sources confirm that Hezbollah claimed to have attacked the airbase on that date, and some sources provide images and drone footage of the airbase, none of the evidence confirms that the image in the claim is authentic. Therefore, the claim cannot be verified.

false

**Verdict: FALSE**

## Justification

The claim that the image depicts the Ramat David airbase after an attack on September 22, 2024, cannot be verified. While multiple sources, including Al Jazeera ([Source](#)) and Politico.eu ([Source](#)), confirm that Hezbollah claimed to have attacked the airbase on that date, and other sources provide images and drone footage of the airbase, none of the evidence confirms the authenticity of the image presented in the claim.
