Evidence

Evidence from **reverse_search**

From [Source](#): Found exact image on website with title: What! Normal toilet seat explodes in Noida home! And why this may ... Content: The Times of India published an article on May 14, 2025, about a toilet explosion in Noida, India, that caused severe burns to a young man.

The article suggests the explosion may have been caused by a methane gas buildup from clogged drains.

Elaboration

The image depicts a toilet that has exploded. The evidence indicates that the image was used in an article by The Times of India about a toilet explosion in Noida, India, in May 2025. The article suggests the explosion may have been caused by a methane gas buildup.

The claim states that the image shows the aftermath of an explosion of a Hezbollah pager in Lebanon in September 2024.

The evidence contradicts the claim.

Final Judgement

The image is of a toilet that exploded in Noida, India, and not of a Hezbollah pager explosion in Lebanon. The claim is therefore false. `false`

Verdict: FALSE

Justification

The image depicts a toilet explosion in Noida, India, as reported by The Times of India in May 2025, potentially caused by methane gas buildup, which contradicts the claim that it shows the aftermath of a Hezbollah pager explosion in Lebanon in September 2024.
