Evidence

Evidence from **reverse_search**

The image

Elaboration

The reverse image search did not yield any results. Therefore, I cannot verify the claim. I need more information to determine the image's authenticity and the context of the situation.

Evidence

Evidence from `web_search`

Benjamin Netanyahu has faced several health issues and hospitalizations. In July 2023, he was hospitalized in Tel Aviv for a heart procedure and a week prior for dehydration, as reported by NPR (<https://www.npr.org/2023/07/22/1189637298/israel-netanyahu-heart-hospital-pacemaker>). In December 2024, he underwent prostate removal surgery and was hospitalized in Jerusalem, according to CNN (<https://www.cnn.com/2024/12/31/middleeast/netanyahu-hospital-prostate-budget-bill-intl-latam>). In July 2025, The Times of Israel reported that he was working from home due to illness (https://www.timesofisrael.com/liveblog_entry/pm-suffering-from-food-poisoning-his-office-says-after-he-skipped-cabinet-meeting/). `image:0`, `image:i`,

Evidence from web_search

The Times of Israel (<https://www.timesofisrael.com/netanyahu-to-undergo-routine-medical-exam-levin-fills-in-as-acting-pm/>) reported that Benjamin Netanyahu underwent a routine colonoscopy in December 2023 and had a urinary tract infection in December 2023. NDTV (<https://www.ndtv.com/world-news/netanyahu-suffers-dehydration-after-eating-spoiled-food-recovering-at-home-8914034>) reported that Netanyahu was recovering at home after being diagnosed with intestinal inflammation caused by spoiled food in June 2024. The Anadolu Agency (<https://www.aa.com.tr/en/middle-east/israeli-prime-minister-diagnosed-with-intestinal-inflammation-after-suffering-from-food-poisoning/3636595>) reported that Netanyahu was diagnosed with intestinal inflammation in July 2025.

The NDTV and Anadolu Agency articles both include the image

Elaboration

The claim is partially verifiable. The image is authentic and depicts Benjamin Netanyahu. However, the claim that the image is from November 2024 is inaccurate. The image is associated with reports of Netanyahu's intestinal inflammation in June 2024 and July 2025.

Final Judgement

The image is authentic and depicts Benjamin Netanyahu. However, the claim that the image is from November 2024 is inaccurate. The image is associated with reports of Netanyahu's intestinal inflammation in June 2024 and July 2025. Therefore, the claim is not factually accurate. false

Verdict: FALSE

Justification

The image is authentic and depicts Benjamin Netanyahu, but the claim that it was taken in November 2024 is false. The image is associated with reports of Netanyahu's intestinal inflammation in June 2024 and July 2025, as reported by NDTV and Anadolu Agency.
