The provided evidence confirms that there were Israeli attacks on Lebanon on October 21, 2024. The CNN article (<https://www.cnn.com/world/live-news/israel-iran-lebanon-gaza-war-10-21-24-intl-hnk>) and The Guardian article (<https://www.theguardian.com/world/2024/oct/21/israeli-airstrikes-on-lebanon-hit-branches-of-hezbollah-linked-bank-al-qard-al-hassan>) both support this.

The reverse image search did not provide any additional information to verify the claim.

### Evidence from `image_search`

The search results include images and articles about Israeli attacks in Lebanon on October 21, 2024. OPB.org (<https://www.opb.org/article/2024/10/21/israel-attack-beirut-hezbollah-bank/>) shows an image of an attack in Beirut

. PBS (<https://www.pbs.org/newshour/world/israeli-airstrike-in-lebanon-kills-at-least-21-in-town-that-has-seen-its-share-of-deadly-attacks>) shows the aftermath of an attack

. NPR (<https://www.npr.org/2024/10/21/nx-s1-5159600/israel-strikes-hezbollah-banks-al-qard-al-hassan>) discusses Israeli strikes on Hezbollah-linked banks

## Elaboration

The image search results provide additional context, confirming that Israeli attacks in Lebanon occurred on October 21, 2024. However, none of the images from the search results match the original image.

The claim is likely true, but there is no direct evidence to confirm that the image depicts an Israeli attack on Lebanon on October 21, 2024.

```

## Evidence

### Evidence from geolocate

The most likely countries where the image was taken are: {'Palestine': 0.66, 'Israel': 0.22, 'United Arab Emirates': 0.08, 'Jordan': 0.01, 'Albania': 0.0, 'Andorra': 0.0, 'Argentina': 0.0, 'Australia': 0.0, 'Austria': 0.0, 'Bangladesh': 0.0}

The geolocation analysis suggests that the image was most likely taken in Palestine. This contradicts the claim that the image shows an attack in Lebanon. Therefore, the claim is false.

## Final Judgement

The evidence confirms that there were Israeli attacks on Lebanon on October 21, 2024. However, the geolocation analysis suggests that the image was most likely taken in Palestine, contradicting the claim that the image shows an attack in Lebanon. `false`
